

Fox Wood – Safety Tips for Campfires

- Only adults to light and refuel the fire
- Keep your fire small
- Do not use flammable liquids to ignite or keep your fire burning
- Stack extra firewood upwind and away from the fire
- Always supervise children and dogs around the campfire
- Never run around your campfire – walk slowly and carefully
- Do not leave your campfire unattended. Even a small breeze could quickly cause the fire to spread
- Teach children to stop and drop and roll if their clothing catches fire
- Always plan for an emergency. We recommend having 2 fire buckets full of water near your fire.
Buckets are available for sale from reception.

Finally, we're here to help. Contact the campsite staff on 07900 017 514 if you need any assistance
